Dibbs by the numbers

Your physical to digital partner for web3

Bringing Physical Assets into Web3 since 2020.

Dibbs is the physical world's onramp to Web3. Our mission is to help brands and IP creators build deeper, more authentic, and monetizable connections with their communities by safely and securely creating a digital presence for their physical collectibles. Our team is focused on becoming the most trusted platform in the world for the minting and redemption of collectible-backed digital tokens.

Purpose-Built to Manage Every Aspect of Item Tokenization

Dibbs enables brands to execute physical-to-digital asset drops by providing the highest level of legal, security, logistics and accessibility-related framework in the world.

BRAND SECURITY AND TRUST

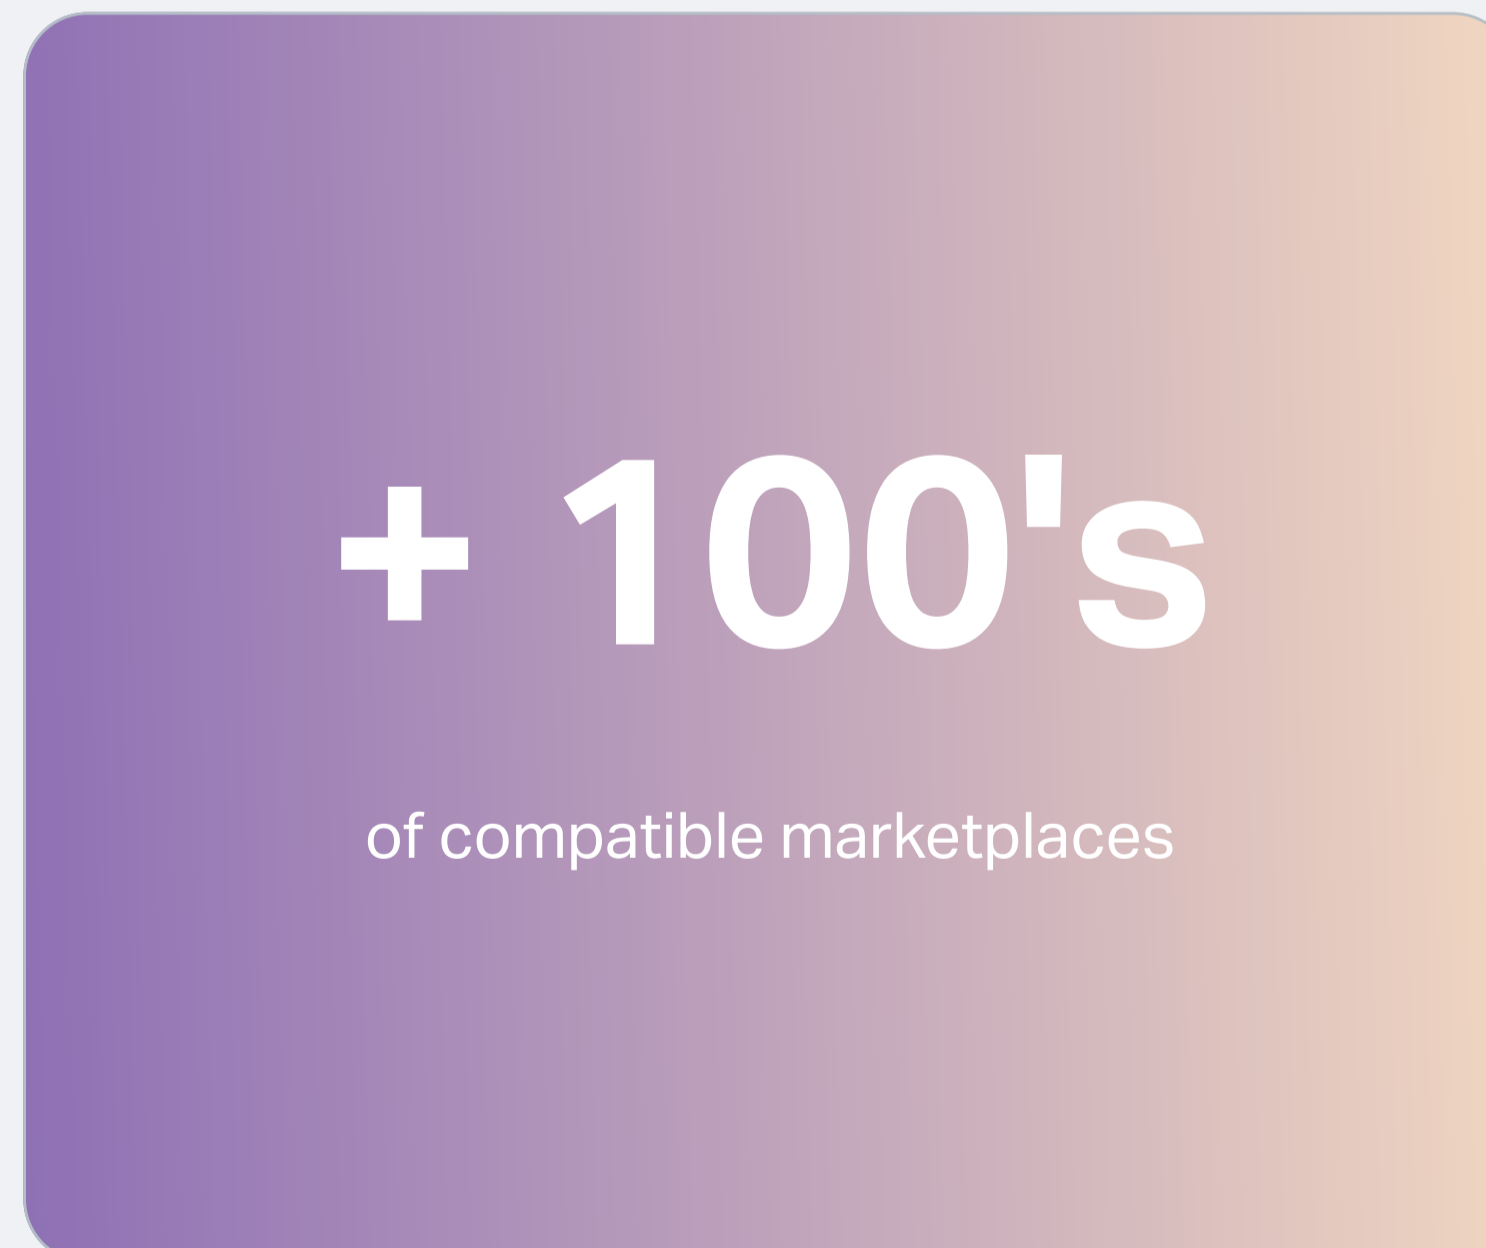

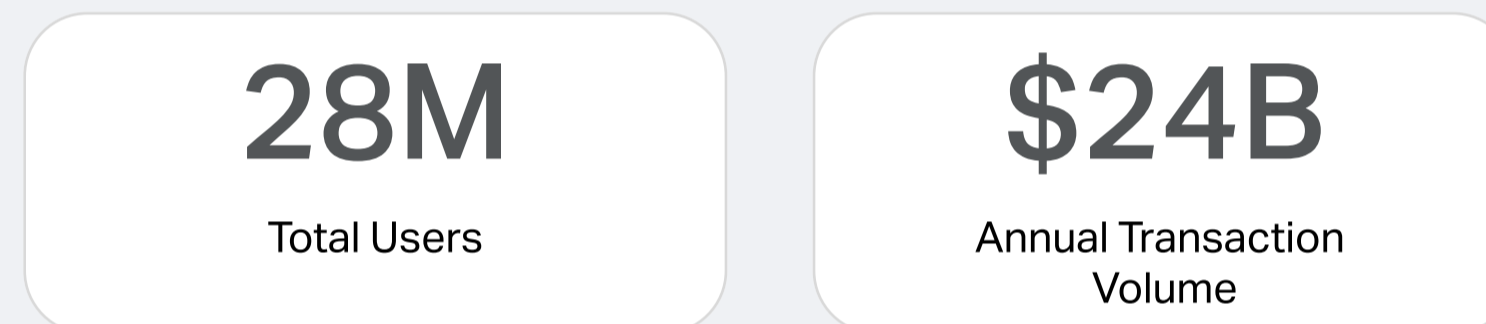

-  Becoming the only regulated company to custody physical-to-digital assets
-  24/7 Transaction monitoring on all Dibbs assets.
-  10,000 square feet of vault in the same location as assets from the Louvre, MoMa, etc.
-  Physical assets insured for damage and thefts and secured in perpetuity.

COMPLETE FLEXIBILITY FROM MINTING TO MARKETPLACE

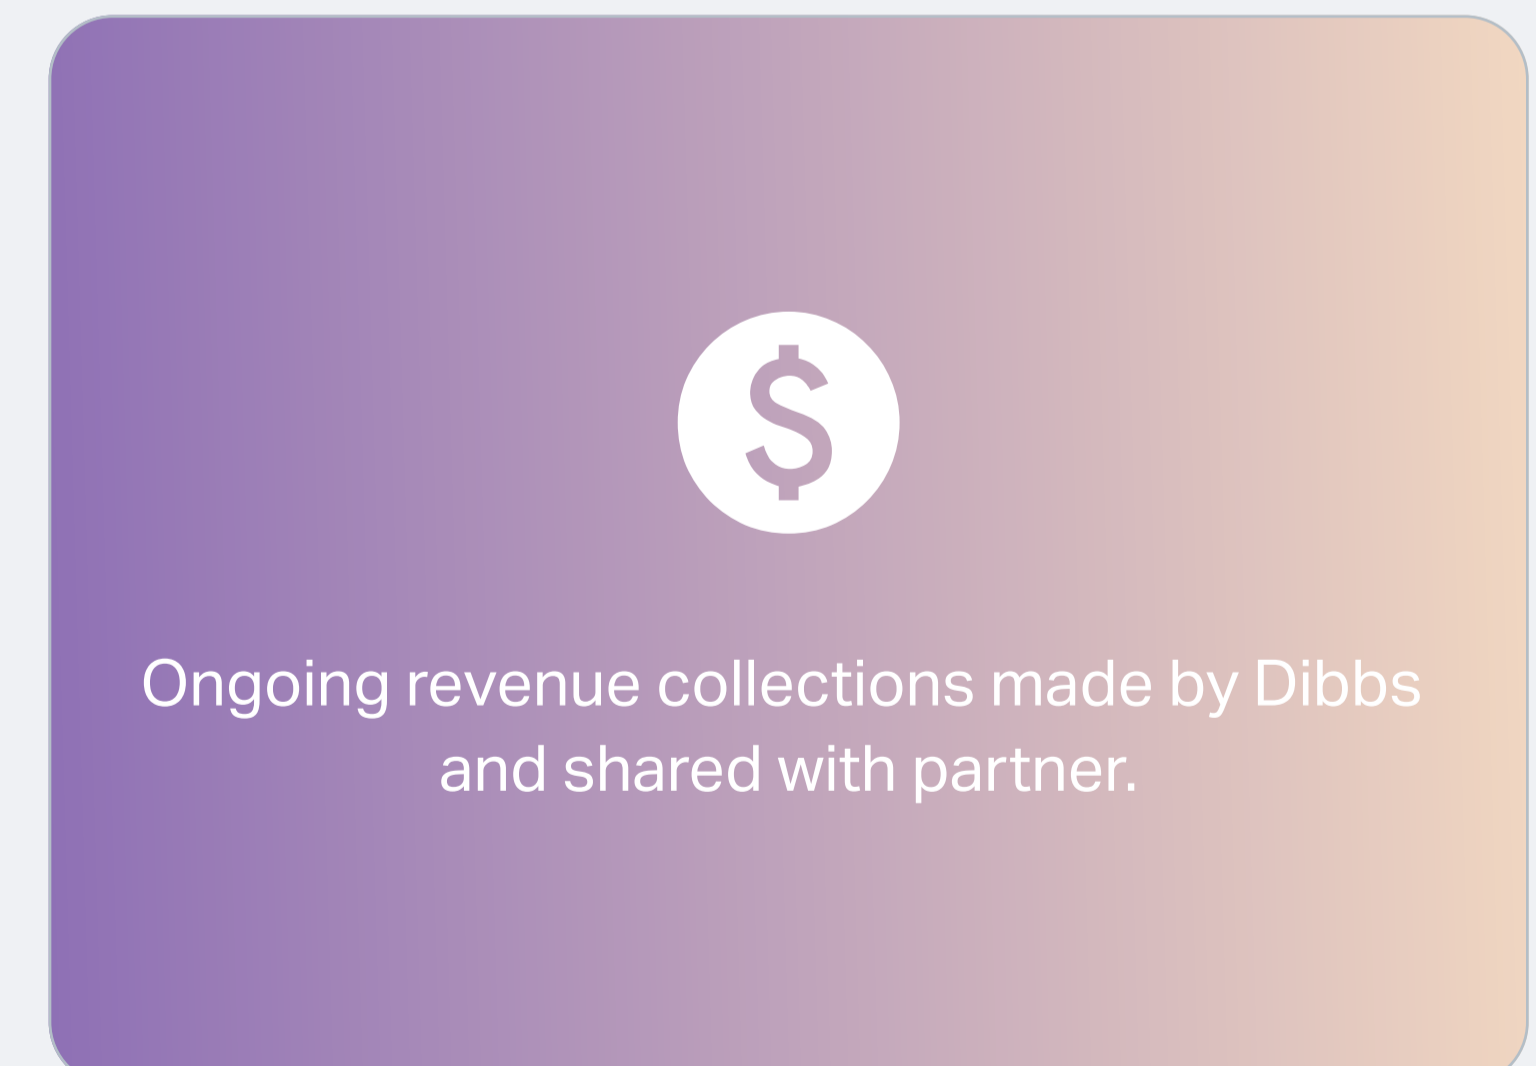

Blockchain agnostic

Over 80+ currently active marketplaces

EASE OF USE

DIBBS.

Dibbs is the end-to-end solution for item tokenization. Get in touch today and learn what's possible for your company.
